## MANILA CONFERENCE PREPARATIONS PROGRESSING RAPIDLY

Preparations for the 16th Biennial Conference on the Law of the World, sponsored by the World Jurist Association, are moving quite rapidly. The Conference, which will take place in Manila, Philippines from October 24-29, 1993, continues the Association's objective of bringing distinguished leaders of the world's legal systems together to address the major current issues of the world community. The theme of the Conference "Law in a Changing World" is implicitly the major interest of the peoples of the world as the ever shifting global economic market requires a stable law foundation. It is to further establish that foundation that legal leaders will direct their energies to at the Conference.

The Center continues to receive inquiries from interested participants from around the world and the list of confirmed speakers and panelists continues to grow.

As the WJA concludes the calendar year 1992 with a dynamic Seminar in Jerusalem on December 26-28, members and friends can certainly look forward to what we expect will be one of the most exciting Biennial Conferences in the Association's Thirty year existence in enchanting Manila. We certainly hope that you will join us.

At this time we are also preparing for a reunion of all those who participated in our 1977 Manila Conference, which was such a tremendous success. Please notify us if you wish to participate in this reunion.

As in the past, legal professionals from around the world will journey to the Conference. The Chief Justices of many nations will attend and participate. President Fidel Valdez Ramos of the Republic of the Philippines is the Honorary Chairman of the Conference and will address delegates at the opening ceremonies. During the busy week of discussion and meetings, there will be many other speakers of note.

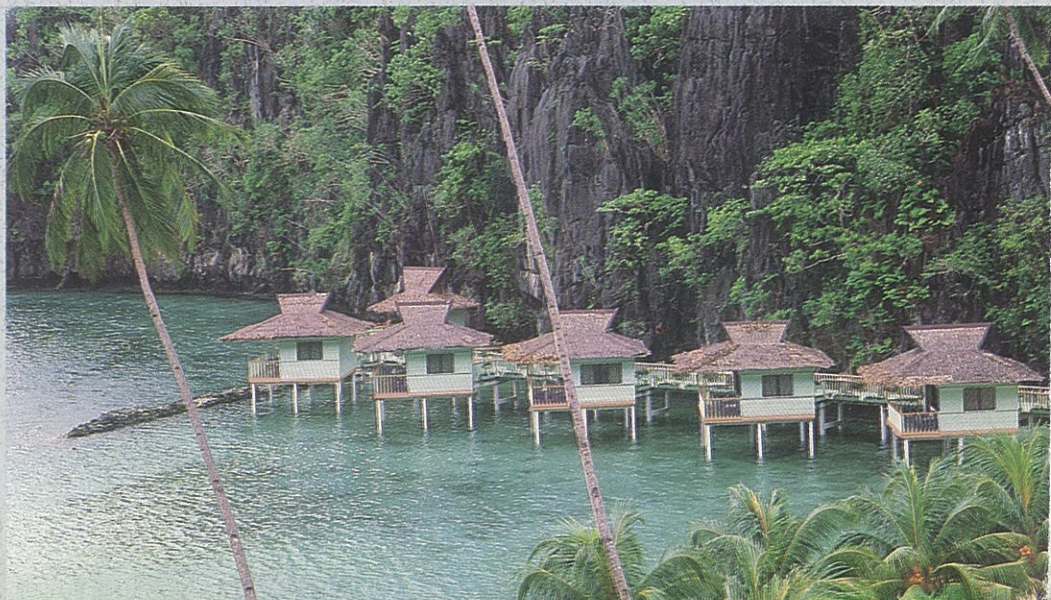

Highlights of the Conference include the World Law Day Celebration and the Demonstration Trial on the Mass Expulsion of Unwanted Minority Groups. Nine Chief Justices from around the world make up the court which will hear the case.

The World Jurist Association of the World Peace Through Law Center would like to express its appreciation to long time member Mr. Raul Goco who was recently appointed Solicitor General of the Philippines. Mr. Goco has rendered invaluable assistance and so has the local Filipino Host Committee. The WJA is excited about "bringing the world" to Manila for the Association's Sixteenth Conference on the Rule of Law. But we need your support. Help us celebrate our 30 year anniversary in Manila.

The World Jurist Association is hopeful that our friends and members who attended the Conference in Athens (1963) will be able to join us in Manila. Many of our members who were present in Athens have continued to participate in the various WJA seminars and world conferences and still continue to actively support the WJA.

We encourage all members and friends to return to the site of the extraordinary 1977 World Conference to meet with other international jurists to exchange ideas on some of the critical problems of our time. Join them, and us in working towards a world of peace through the rule of law at the Sixteenth Conference on the Rule of Law in the World.

## Demonstration Trial Highlights Manila Conference

On Wednesday, October 27, 1993, the Mock Demonstration Trial, which is a mock exercise in the third party settlement of an interesting issue of public international law will commence as one of the real highlights of the Manila Conference. The participants for the trial consists of the Chief Justices of at least nine nations with one Chief Justice presiding over the trial.

The topic to be adjudicated is the "Mass Expulsion of Unwanted Minority Group by Means of Forced Deportation and the Rights and Obligations Owed by Adjoining States to the Refugees". Demonstration Chairman Ronald Greenberg, Esq. and Co-Chairman Prof. Dr. Dieter Umbach have chosen a subject that is of particular relevance given the plight of many nation-states who are confronted with this challenge throughout the international community. The following fact pattern will be utilized as the starting point for the mock trial:

For the past three years State Alpha was engaged in a bloody civil war over who would control the country as a result of a military coup. The military received substantial financial and military aid from State Zeta, while the opposition received similar aid from State Delta. The war has just ended with the military prevailing.

During the three years of fighting hundreds of thousands of men, women and children, who are citizens of State Alpha, fled their country to neighboring State Beta. Many of these refugees suffer from malnutrition and serious diseases, including AIDS. This has forced State Beta to expend millions of dollars to provide food, shelter and medical care to these refugees.

With the civil war now over in State Alpha, State Beta commences suit in the World Court against State Alpha, State Zeta and all other nations of the world. The relief sought by State Beta is as follows:

1. Repayment from State Alpha and State Zeta for all monies spent, and to be spent, by State Beta on the food, shelter and medical care of State Alpha's refugees.
2. Alternatively, repayment from all nations of the World for all monies spent, and to be spent, by State Beta on the food, shelter and medical care of State Alpha's refugees on a pro rata sharing basis, the pro rata sharing basis to be determined by the World Court.
3. A declaration as to whether State Beta has the right to send the refugees back to State Alpha over their objection that they will be imprisoned or killed, or to disperse the refugees to other nations of the world on a pro rata basis to be determined by the World Court.

State Alpha opposes State Beta's claims against it on the ground that it had the right under international law to its civil war, that it did not send its citizens into State Beta and that its citizens are free to return.

State Zeta opposes State Beta's claim against it on the ground that it had the right under international law to provide aid to one of State Alpha's factions and also on the ground that, if it has any responsibility for the refugee problems, so too does State Delta, since it did the same thing for the other faction.

State Delta supports State Zeta's position of no responsibility even though State Delta and State Zeta supported opposing factions.

States Alpha, Zeta and Delta all support State Beta's position that, if responsibility for the refugee problem is to be placed anywhere, it must be with all nations of the world, and that responsibility must be shared on a pro rata basis to be determined by the World Court.

All other nations of the world oppose the positions of States Beta, Alpha, Zeta and Delta that they too must share responsibility for the refugee problem on a pro rata basis on the ground that they played no part in the conflict, or in the creation of the refugee problem.

It is the intent of this demonstration trial to focus attention on the world-wide refugee problem, and to begin a dialogue on finding solutions to the problem.
